

YEAR 6 SUPER BIRD SAVERS!

Brayden, Jude, Caleb and Jacob, who are Year 6 pupils at our school, saved a young bird's life after seeing it on the floor. We decided to interview these brilliant bird savers!

What did you do to save the bird?

We gave it some of our water because it was coughing out blood and it had wood in its beak. The bird looked in pain and frightened so we called the RSPCA.

Where were you?

We were riding our bikes at the common.

How did the bird get hurt?

We believe it fell out of a tree.

Do you know if the bird is safe?

The RSPCA got in contact and said that the bird is now safe and healthy. They thanked us for helping to save it.

HOLIDAY DESTINATIONS

The summer season is here and many people will travel abroad to go on holiday. Here are our top 5 places to go around the world with some facts about each one.

1. Croatia

This beautiful country is on the Adriatic Sea.

Capital – Zagreb

President – Kolinda Grabar-Kitarovic

2. Italy

Located in Europe, Italy has a long mediterranean coast line.

Capital – Rome

Population – 6.59 million

3. Majorca (also known as Mallorca)

This is a beautiful Spanish island.

Capital – Palma

Population – 894, 897

4. Mexico

This country is located between the US and Central America.

Capital – Mexico City

Population – 129.2 million

President – Andrés Manuel López Obrador

5. Dubai

This is the most popula city in the UAE.

Population – 3, 137, 463

D-DAY ANNIVERSARY

Why do we celebrate D-Day?

On Tuesday 6th June 1944, different forces invaded France on a beach in Normandy. We celebrate D-Day to remember the brave soldiers who landed on the beaches and honour those who died. It was this invasion that allowed the Allies to finally defeat Germany.

Casualties

The total number of casualties from the date of D-Day to 30th August (when German forces retreated across the Seine) was over 425,000 Allied and German troops.

The anniversary

Theresa May and the French president, Emmanuel Macron, have joined D-Day veterans in Northern France for a second day of events to mark the 75th anniversary of the Normandy invasion.

NEW YEAR GROUP REMINDERS

As everyone is moving in to a new year group, we think it is important to remember a few important things.

Firstly, when you go to your new classrooms, you ought to remember PETS (please, excuse me, thank you and sorry). You should also remember our school values: respect, excellence, community, responsibility, compassion and resilience. To help

demonstrate excellence, you should wear the correct uniform. If you need reminding of what that is, please look on the Hayes website.

Year 5 and 6 will now be using pencil cases. You can get stationery from many places such as WH Smiths and Poundland. A letter went out telling you exactly what you need to bring in.

Finally, remember to try your hardest and have fun!

RARE LAKE FOUND ON ATLANTIC ISLAND

A lake of molten hot lava has been discovered inside a volcano! This massive 100 metre lake conceals lava over 1000 degrees celsius, making it 10 times hotter than boiling water.

The volcano that fuels this lava lake is almost always covered in snow. It is a rare discovery and has been named the world's 8th lava lake. Unfortunately, scientists rarely visit the island because of its remoteness.
