

Hi 5F,

How are you? I hope your first week of the Summer term has gone well. It's been so lovely having so much sunshine this week, I've been playing with my girls lots in the garden and we've done lots of arts and crafts outside this week.

We made a rainbow wind chime using sticks that we painted and its hanging in front of our house for people to see what they walk past. I have attached a picture below and my challenge to you this week to make up-cycle some natural objects you can find in your garden or when you go on one of your daily walks. Please send me a picture of what you create.

I hope your home learning is going well and I'm sure you are all working really hard. Don't forget to email us if you need any help with anything. In English this week you will see we have asked you to email us a copy of your newspaper article about your time in lockdown. We are planning to make a class book of these articles when we get back to school so please don't forget to send them to us.

I have loved reading the emails you have sent me so please stay in touch- your messages always really make me smile.

Stay safe and take care

Lots of love to you and your families

Mrs Field
