To support the children with their times tables this year, we would like them to continue using Times Tables Rock Stars. In this program, the children are able to create their own avatar and choose a rock star name. They will take part in a series of multiplication challenges to support their times tables recall. All challenges are completed to fun and lively music. We recommend that your child uses this app four to five times a week.

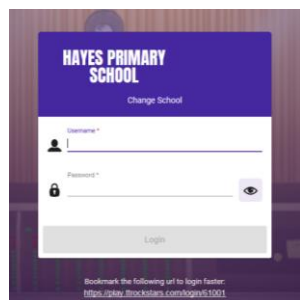

Your child will have the same log in details as last year and will be reminded of these in school. To log in at home, download the app or visit www.trockstars.com and follow the steps below:

Select login and school pupils.

Type in the school's postcode BR2 7LQ and select Hayes Primary School

Type in your child's individual password and username.

We will be holding a competition from now until the 10th December! The child in each year group who earns the most coins in this period will receive a maths prize.

Thank you for your continued support.

Yours sincerely,

Miss Thornley
