

Dear Parents/ Carers

## Phonics Resources

We would like to provide children with the opportunity to review the sounds they have learnt in school. We will invite all children to join a new 'Phonics' classroom on Google Classroom. To access these resources, please ensure that you select the 'EYFS Phonics classroom' shown below.

Every Wednesday, we will upload links to the sounds for you to access with your child throughout the week. These links will be changed and updated every Wednesday. The links will be particularly beneficial to children who are revising single sounds and learning to blend.

## Home Reading

In addition to the links that are uploaded onto Google Classroom weekly, children will either receive a book for pleasure (for you to read to them) or a book from our reading scheme/sound blending book which the child should read to you.

If your child comes home with paper ditties, these will be changed on a Friday. The ditties are the texts that they have read in their phonics sessions through the week. Your child should return these to school the following Friday. To complete the ditty your child needs to...

- Say the sounds at the top of the sheet in and out of order.
- 'Fred talk' and blend the green words
- Read the red words (if there are any)
- Read the sentences.

Please do not worry about the question and 'hold a sentence' at this time.

If your child is on RWI books then these will be changed on a 3 day cycle, in line with the phonics and reading sessions in school. These books will need to be in your child's book bag every day as these will be changed on different days each week.

If you do have any books at home (including the blending books), please could you return these to school. Please ensure that you write in the yellow reading record when a book has been read and that no other school books are written on. If you have any questions, then please speak to your child's class teacher.

Many Thanks for your continued support.  
The EYFS Team
