Bikeability Cycle Training Course – Year 6

The Cycling Team has provisionally booked Bikeability Cycle Training for some of the Year 6 students at your child's school in June. Places are allocated on a first come first serve basis.

Equipment required

Please note **your child must have access to a fully roadworthy bike of the correct size** for your child and a **cycle helmet** and they **must be already able to ride** in order to take part in the course. The children are to wear suitable clothes for riding in.

If you need further advice on these points, please contact me using the details below.

What is Bikeability?

Bikeability courses are designed to train children to cycle on the road safely and with confidence, so that they can go on to make independent on-road journeys. Bikeability consist of two levels and takes places over a day and a half.

- **Level One – registration to break** - This is an off road assessment where the pupils will practise basic skills such as use of gears, stopping quickly with control, manoeuvring safely to avoid objects, looking all around including behind without wobbling and signalling with control. Children must complete level one in order to progress onto level two.
- **Level Two – break to end of day one. Day two - registration to lunchtime** - This takes place on quiet local roads at locations that have been risk assessed. Children are able to use the above skills via a range of practical exercises and assessments.

All children receive a booklet, badge, and certificate for the highest level they participated in, and will receive feedback as to whether they have achieved the full award for that level. Our instructors will confirm that feedback on the back of the certificate.
